Coordinate apartment handset METAKOM TKP-14M

PASSPORT

Purpose

Coordinate apartment handset METAKOM TKP-14M is intended for use in the intercom system of METACOM with coordinate addressing of subscribers. METAKOM TKP-14M is installed in the subscriber's apartment and is used for sounding the subscriber through the calling device of the intercom, visitor-subscriber communications and remote opening of the entrance door by the subscriber.

Specifications

Overall dimensions, mm, not more than	Weight, g, not more than	213x81x60	350
Operating temperature range		+ 5...+40°C	
Relative air humidity (at 35 ° C), no more than			95%

Installation order

METAKOM TKP-06M (METAKOM TKP-06C) consists of handset and a stand. The stand is mounted in a vertical position with the help of a mounting kit. Connection to the communication line with the intercom outdoor panels is made in accordance with the passport for this type of outdoor panel. When connecting the handset to the line, it is necessary to observe the polarity.

Using the handset by subscriber

In standby mode, the handset should be laid on the stand. With the handset removed from the stand, the call from the outdoor panel doesn't pass. After receiving the call signal, the handset must be removed from the stand and negotiate with the visitor. To open the entrance door, you must press the door open button located on the handset. **To ensure your safety, before opening the door make sure the identity of the visitor!** To turn off ringing tones, the night-time switch must be set to 0.

Transportation and storage

Packaged products can be transported by all modes of transport, except unpressurized aircraft compartments and open decks of ships, in accordance with the rules for the carriage of goods operating on this mode of transport.
