- b. In standby mode, press and hold to turn on, the indicator will turn off.
- c. In off mode, press to enter the standby mode.

2. Reminder on call**a. Standby mode**

When you receive a call from the panel, the monitor screen will display the image automatically. The indicator will flash.

Note: If there is a call from 1 panel the indicator will turn blue, if there is a call from 2 panel it will turn green.

**b. Talk mode**

If you are in a call with one call, a call is made from the other panel, there will be no ringing tone, but the light will flash 10 times.

3. Conversation / Termination of conversation

3.1 Transition to a call from a panel

When you receive a call from the panel, press to start the conversation. When using the E400FC model, it is necessary to remove the handset)

Note: When called from 1 panel, the indicator will turn blue, when 2 panels come in, the indicator will turn green

3.2 Conversation in Preview Mode

If the intercom is in the preview mode, press to start the conversation. (When using the model E400FC, you need to remove the handset)

Note: If you are talking to 1 panel, press to switch to 2 panels.

3.3 Standby talk

In standby mode, press to talk with 1 call panel

Note: When using the model E400FC , you just need to remove the handset.

3.4 Transferring a Call

During a conversation with the main intercom, press to switch to the interphone you want, then press to transfer the call. An additional doorphone will sound a ringing tone, press to start the conversation. The main monitor goes into busy mode.

3.5 Replace the handset

In talk mode, press to exit. Or wait 90 seconds to automatically exit.

4. Viewing the call panel

In standby mode, press to view the panel 1. To view the other channels DOOR 1/DOOR2/EXIT, press the button again. The doorphone will not show the panel 1 if only the panel2 is connected.

5. Opening the lock

During a call with the door panel, press to open the door. If you hold the button, the door lock will be permanently open.

6. Intercom

A. If you use only 2 intercoms, press and hear the DI, then press to call another doorphone.

B. If you use more than 2 intercoms, press the button and the doorphone button indicators will light up, then to make a call to the corresponding monitor, press the necessary button - the order of the buttons corresponds to the monitor number in the system from left to right.

Example, if you want to call intercom 3, press when the indicator is flashing, press to call intercom 3.

Example: the Mute indicator (green) means intercom 1 intercom indicator (green)

indicator Unlock (green) means intercom 3

Power indicator (green) means intercom 4
